SUMMARY

I am a Junior Web Developer specializing in React and Next.js, possessing hands-on experience in crafting interactive, data-driven web applications. With a strong foundation in JavaScript and REST APIs, I excel in converting requirements into functional features, demonstrated through real-world projects involving authentication, dashboards, and API integrations. I am eager to grow within a production environment through a remote or internship role

KEY ACHIEVEMENTS

- React Component Optimization

Increased application efficiency by 25% through optimized React components.
- Team Management Success

Managed a team of 4 developers, improving project delivery by 20%.
- User Engagement Improvement

Implemented features that led to a 30% increase in user engagement.
- API Response Time Reduction

Reduced response time by 50% in WeatherCast application using efficient API handling.

EDUCATION

Bachelor of Science in Computer Science

Government Post Graduate College

11/2023 - 07/2027 Mardan

SKILLS

Languages: HTML, CSS, JavaScript

Databases & Backend Services: MongoDB, Appwrite

Frameworks & Libraries: React.js, Next.js, Bootstrap

Tools & Platforms: Git, GitHub, REST APIs

PROJECTS

Postify

Blog application created using React.js and Appwrite

- Developed a full CRUD blog application allowing users to create, edit, delete, and view posts
- Implemented user authentication and authorization using Appwrite services
- Designed reusable React components to manage post listings and individual post views
- Deployed a live version to demonstrate real-world usage and workflow

Vira Bank

Frontend simulation of a banking interface using HTML, CSS, and JavaScript

- Built a client-side banking interface enabling account creation and dashboard access
- Implemented features for balance tracking, money transfers, and withdrawals using JavaScript logic
- Designed a dashboard to display user account data in a clear, structured layout
- Focused on UI behavior, validation, and user flow rather than backend persistence

Next.js Admin Dashboard

Practice project focused on creating a Next.js admin dashboard

- Built a dashboard application following Next.js best practices for routing and layout structure
- Implemented modular components and page-based navigation
- Strengthened understanding of server-side rendering concepts and project structure

EXPERIENCE

Intern

CodeAlpha

2025 Removr

Company Description

- Highlight your accomplishments, using numbers if possible.
